## **TEDDINGTON AND ALSTONE ENVIRONMENTAL POLICY**

**Adopted 16<sup>th</sup> March 2021**

### **Environmental Policy Implementation Plan**

1. Ensure the Parish Council's activities and procurement is as environmentally friendly as possible by:
  - a) Using local contractors when possible.
  - b) Ensuring contractors use eco friendly products and best practices.
  - c) Using the Parish Magazine, village notice boards, and electronic communication where possible to minimise the use of paper.
2. Planning Applications:
  - a) Ask neighbouring Parishes to notify us of all planning applications that are close to our parish boundaries, and to notify us of other planning applications that might have a detrimental effect on our local environment.
  - b) When considering planning applications take into consideration the impact on the environment, for example car use, tree removal or provision in plans.
3. Seek to ensure the continuation of bus services to the Parish, by promoting their use, liaising with the bus companies, and if needed, lobbying Gloucestershire County Council.
4. Look at the possibility of planting trees at the OPPF.
5. Encourage the formation of an independent community environmental group.

A link to such a group could be posted on the parish council website.
