

Teddington & Alstone A46 Advisory Group

Newsletter #20 - October 2021

The Tewkesbury 2030 Exhibition held last weekend was a great success, with many concerned people visiting our display and giving their views. Thank you if you came along and supported us by giving your feedback. There is a chance, however, to still give your views on the route of the new road, ahead of the formal public consultation, to Gloucestershire County Council and others.

The map below is from a National Highways (formally Highways England) report in 2018, we believe that these options will be put forward in the consultation. We also know that Cllr. Vernon Smith's route (from J10 but running parallel to the A435 and joining up with the A46 to the west of the Teddington Hands roundabout) is being considered.

Option Assessment Report, September 2018 – Obtained by a ‘Freedom of Information’ Request

If you would like to give your view, and we have been assured that our views will be considered. Then the [Feedback Form](#) can either be completed by hand and returned to any member of the TAAG team or posted at Hillview House, Walnut Court, Teddington, GL20 8WB.

Alternatively, complete the form and email it to chris@datapro.myzen.co.uk. Anyone that is unable to download, one of the team will be happy to deliver to anyone in the Teddington & Alstone area. If somewhere in your feedback you can say which village you live, that would be great.

Please note we require any feedback by the 5th of October when all forms will be forwarded to Vernon Smith for distribution to the relevant planners.

Our deeply held views are that any route that uses the A435 or passes through the 'Special Landscape Area' to the north of Teddington village would be detrimental to our villages. We agree with Cllr Smith that any new road should join up to the A46 in between the Teddington Hands roundabout and Aston Cross lights.

If you would like to be reminded about the very many valid reasons for not using the A435, you can review our events [Slides](#) and to see Cllr Smiths business case rational [Business Case](#).

Many thanks for all your support.

Gin, Chris, Jan, and Paul

As always, if you have any concerns as to the future of the A46, please do not hesitate to contact us via the 'contacts' page on the website. [LINK](#)
